

TRAILER MOUNTED CABLE FLEETER

The Trailer Mounted Cable Fleeter replaces the manual handling for "figure eighting" cable and gives extra protection and security to the cable. Following deployment of the cable in the first leg of duct route the balance of the cable is taken out from the drum and took care of into the Fleeter, thereby delivering the cable end ready for blowing into the second leg.

The Fleeting machine enables a smooth and simple system while assuring the cable safety from pedestrians or vehicles and prevents contamination from mud, soil or dust.

The Fleeter is built to operate with the cable blower, which delivers cable supply within and outside of the Fleeter. The unit hosts (3,000 meters) of (13mm) cable, allowing drum lengths of (6,000 meters) to be utilized. The Fleeting machine is made of a road going trailer chassis on which is mounted a cable storage cassette, rotating cable guide quadrant and duct clamp assembly.

TECHNICAL DATA

Drum Diameter Max:	1600 mm
Drum Diameter Min:	800mm
Tyres:	145 R10
Length:	3420mm
Width:	2300 mm
Height:	2330 mm
Weight:	325kg
Weight with box:	420 kg

AIR COOLER FEATURES

- Brakes: Interia type brakes with autoreverse
- Towing Hitch: Eye – 30mm, 40mm, 50mm
- Ball Type – 50mm

All accessories and tools are included.

HOW TO USE CABLE FLEETER

We have;
Cable Drum having 2km of fiber cable, FOK Machine or Mini-FOK Machine,
Duct Coupler, Cable Fleeter.

1st first step, We install 1km Fiber cable into first duct

2nd step, We un-drum remaining Fiber Optic cable into Cable Fleeter.

At 3rd step, We install the fiber optic cable - that we have un-drummed into Cable fleeter on the step step- into second duct.

Finally, 2km of fiber cable is deployed into both of the ducts.

CABLE DRUM ROLLER

Cable Drum Roller is the tool for Rolling cable on it. You can use cable drum roller for different drum diameters and different widths. You shall change the place of rear roller to use machine for different cable drums. You can use cable drum roller for drums from 400 mm dia to 1500 mm diameter. It is handy structure allow you to to carry on your hand. This robust heavy duty adjustable cable drum roller set (also known as a wire drum roller) is ideal for despoiling and recoiling various cables during installations. Cable Drum Roller is manufactured from heavy duty fabricated painted mild steel and uses heavy duty rollers (which are also adjustable) to ensure any size drum should fit. Ramp entry and exit eases the loading and unloading of drums onto the rollers themselves
