

KOSMAK

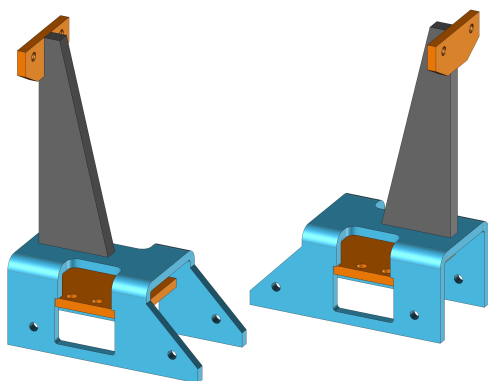

Paper Industry Spare Parts

Visual reference catalogue

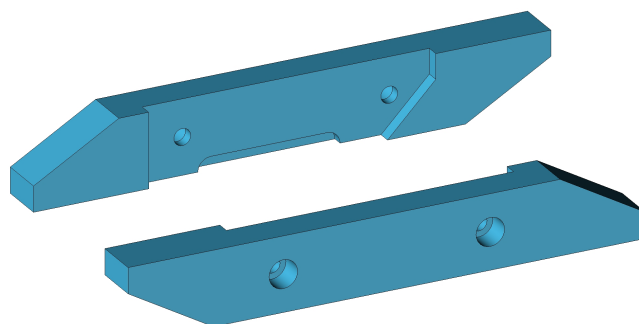

10 supplied part renders with their source reference codes.

Prepared from the user-provided spare-parts folder on 20 October 2026.

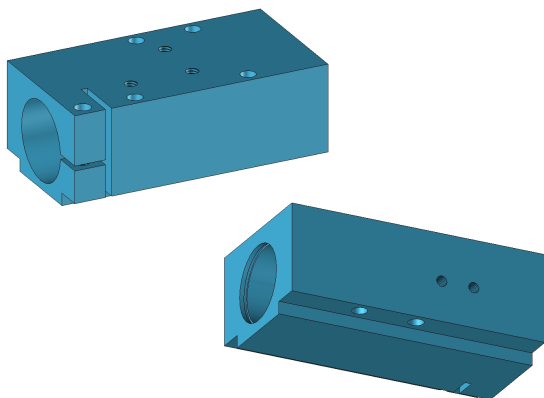

A new visual compilation; not an original historical engineering datasheet.

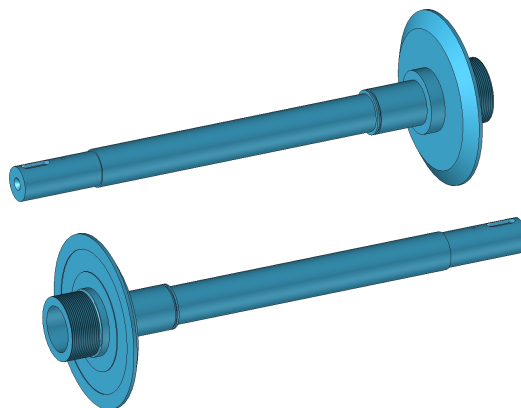

TK3PC-KS-0001

TK3PC-KS-0003

TK3PC-KS-0010

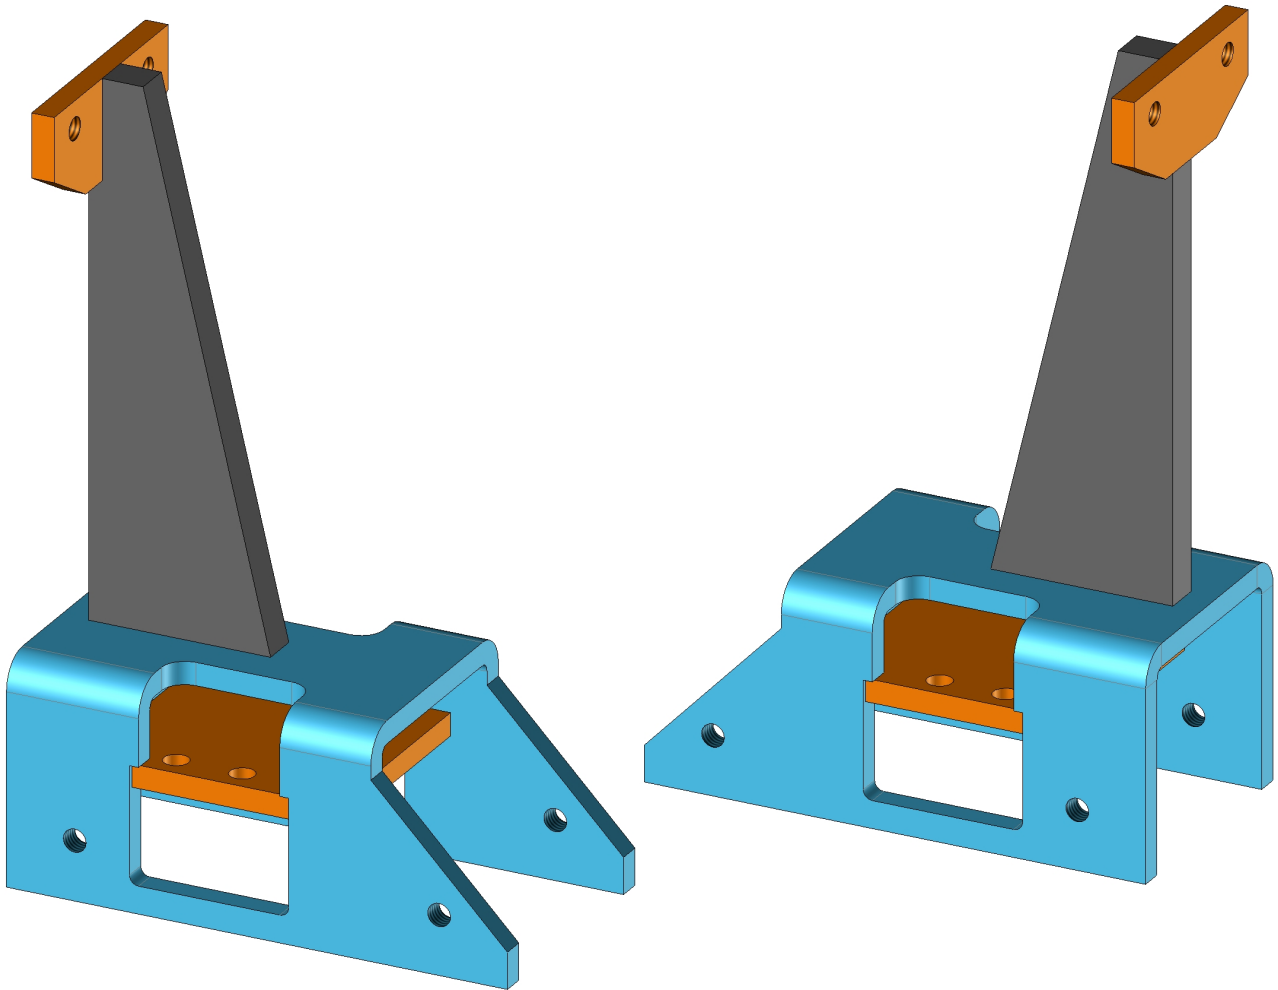

TK3PC-KS-0018

Confirm the required part, drawing revision, dimensions and machine fit with KOSMAK.

This catalogue does not specify materials, operating limits or machine compatibility.

TK3PC-KS-0001

Log pusher feet

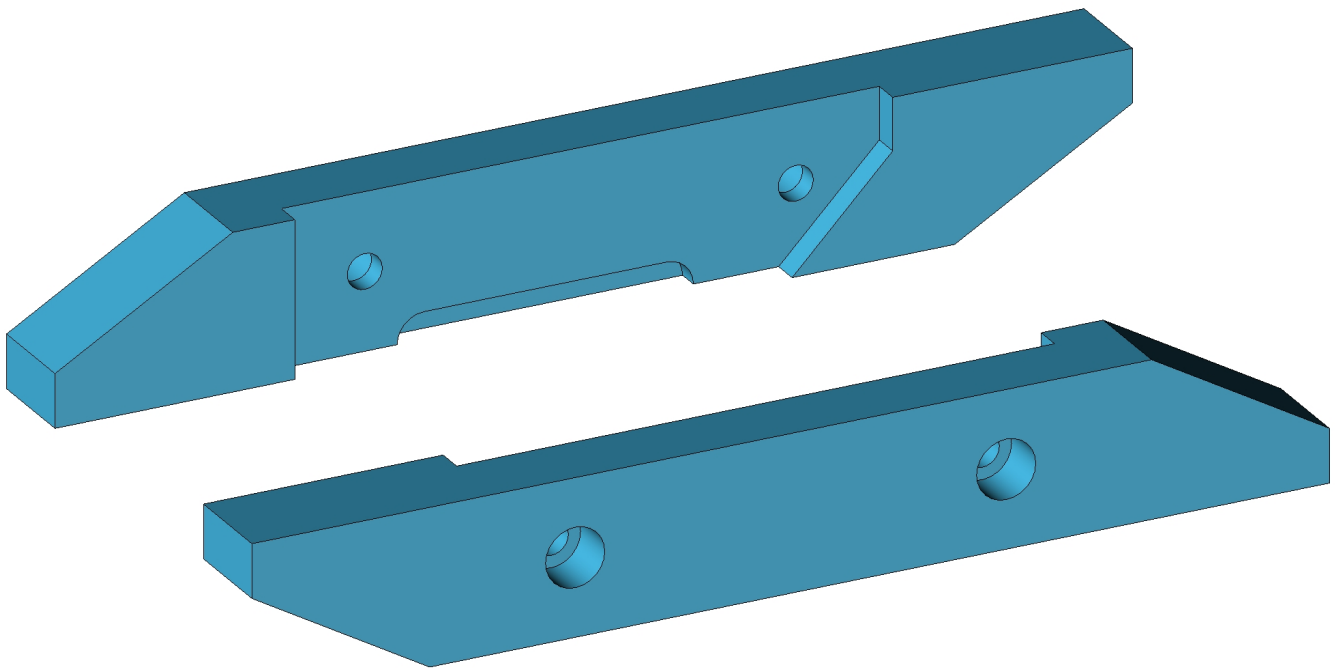

User-supplied technical part render. Reference code follows the source filename.

Verify dimensions, drawing revision and machine compatibility before ordering.

TK3PC-KS-0003

Log carrier foot bearing plate - left

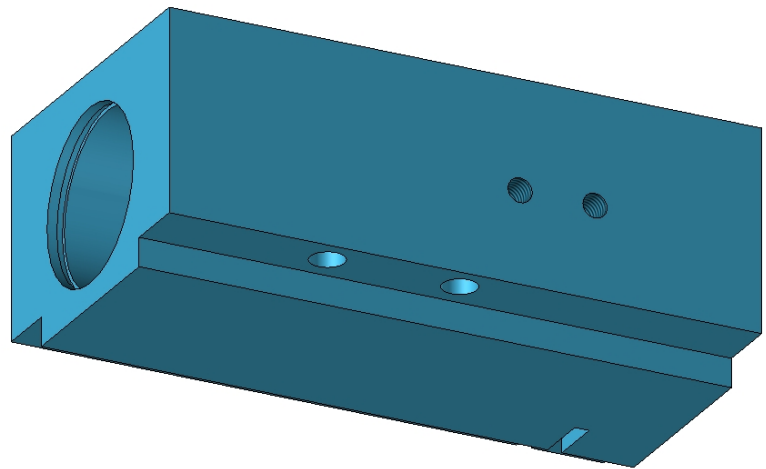

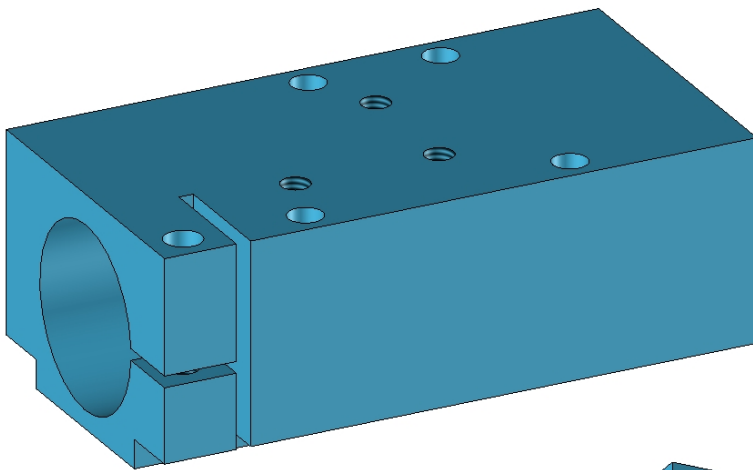

User-supplied technical part render. Reference code follows the source filename.

Verify dimensions, drawing revision and machine compatibility before ordering.

TK3PC-KS-0010

Cutting / grinding stone shaft bearing - right

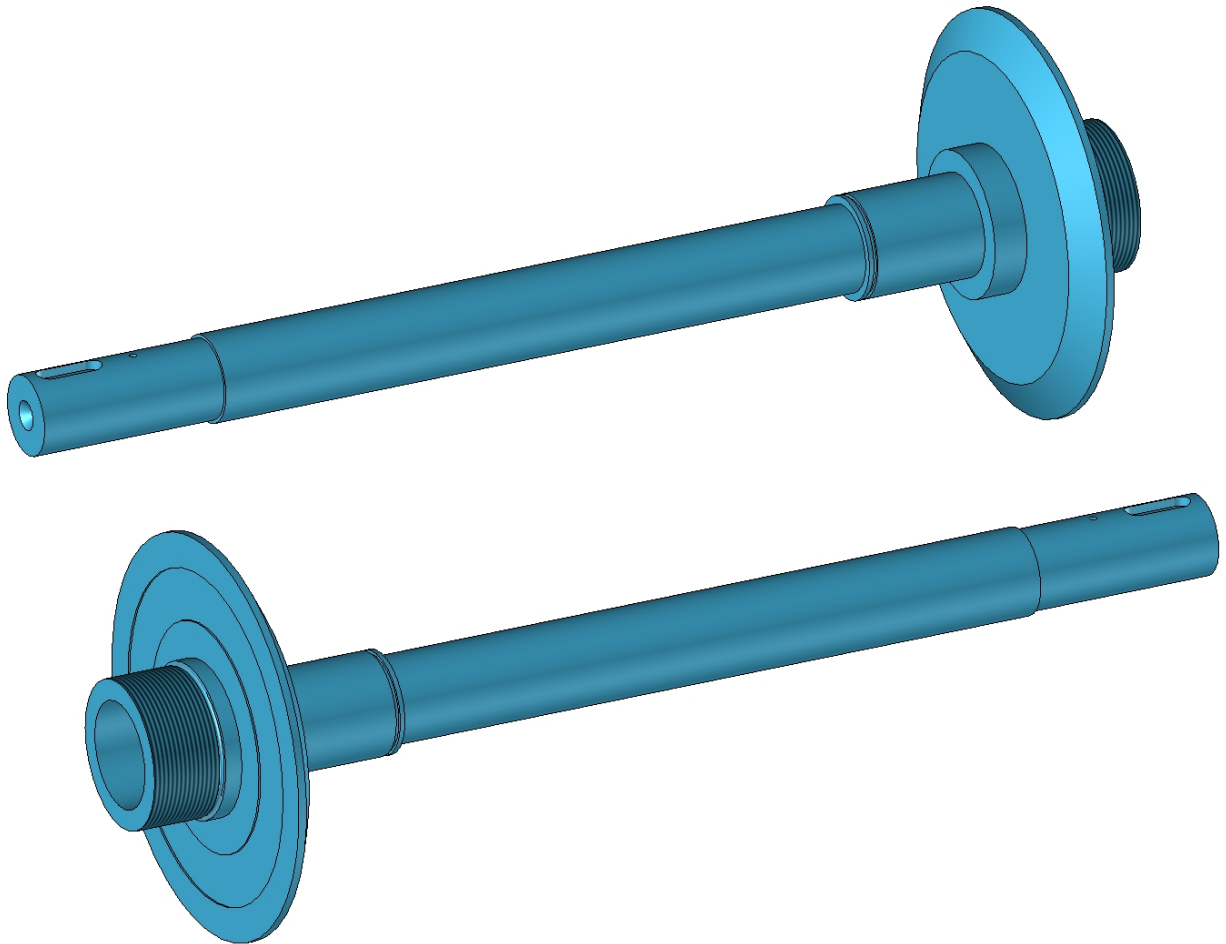

User-supplied technical part render. Reference code follows the source filename.

Verify dimensions, drawing revision and machine compatibility before ordering.

TK3PC-KS-0018

Knife drive shaft

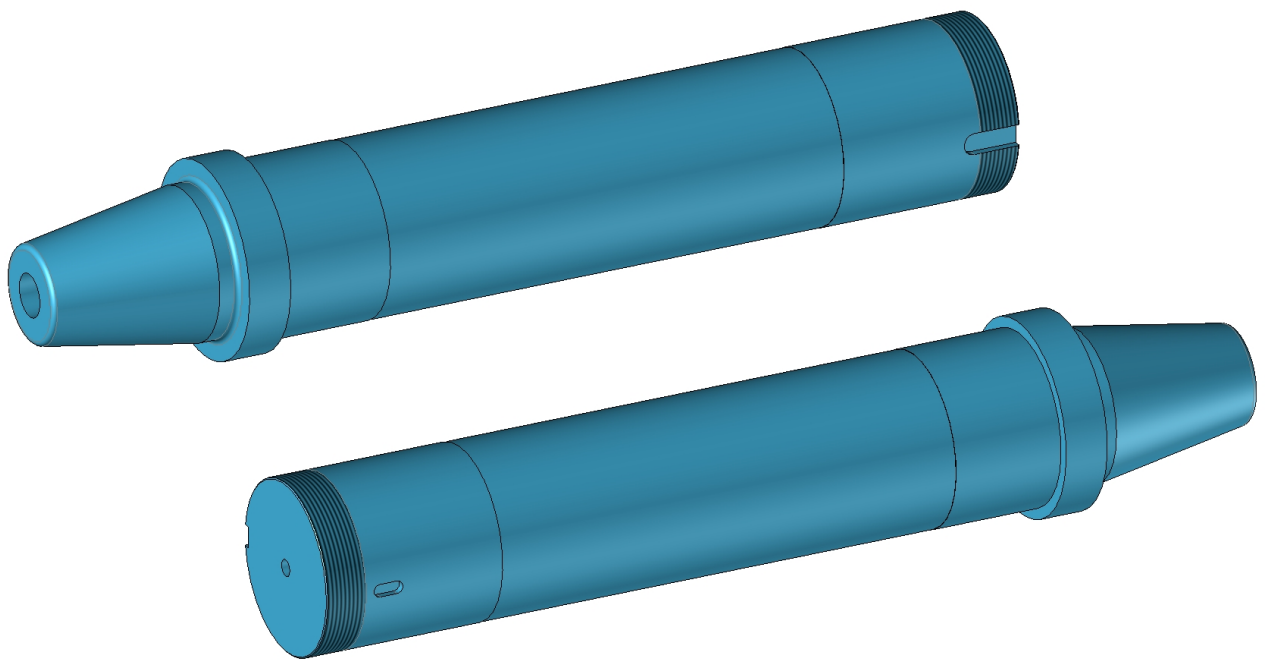

User-supplied technical part render. Reference code follows the source filename.

Verify dimensions, drawing revision and machine compatibility before ordering.

TK3PC-SG-0001

Reel mounting head spindle

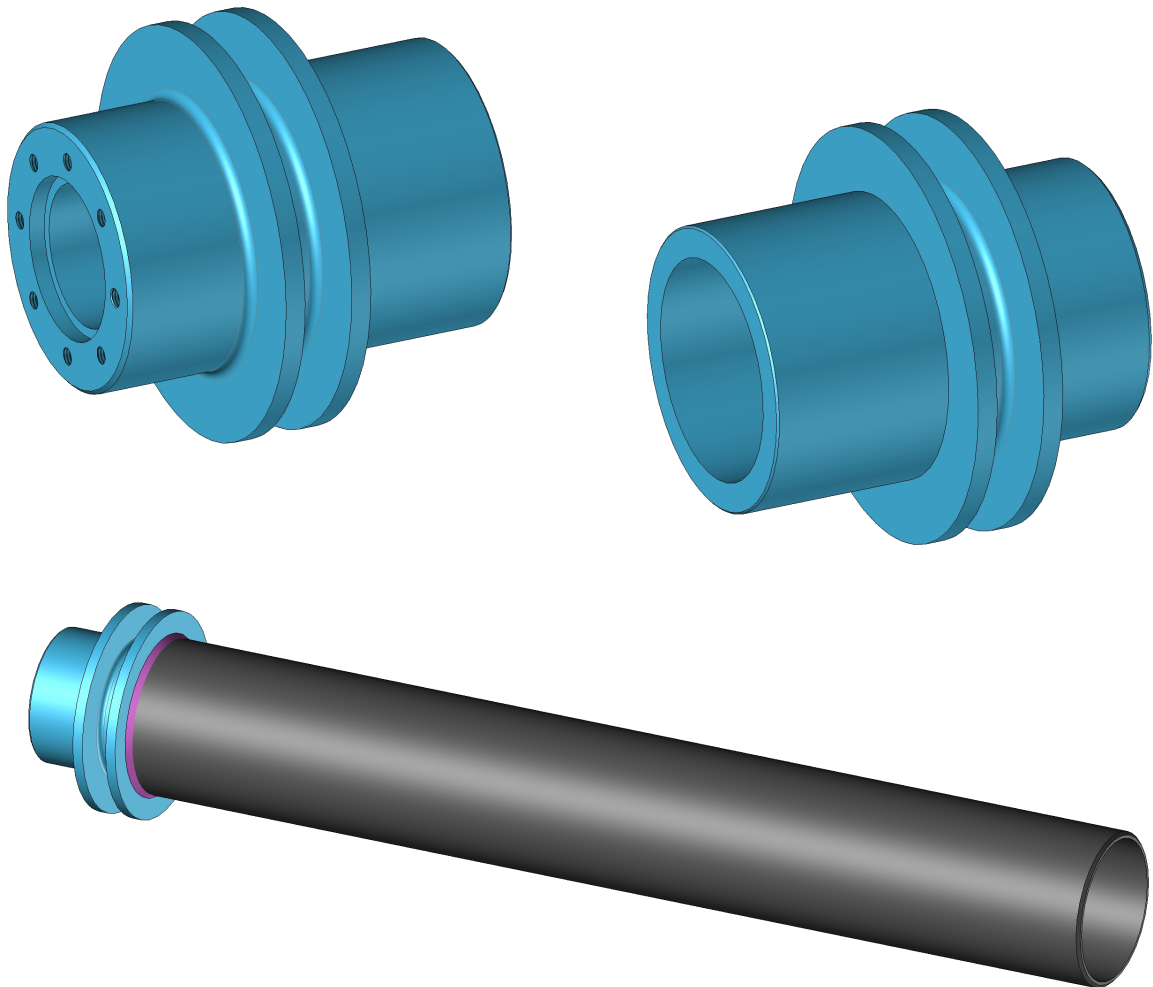

User-supplied technical part render. Reference code follows the source filename.

Verify dimensions, drawing revision and machine compatibility before ordering.

TK3PC-SG-0002

Reel head

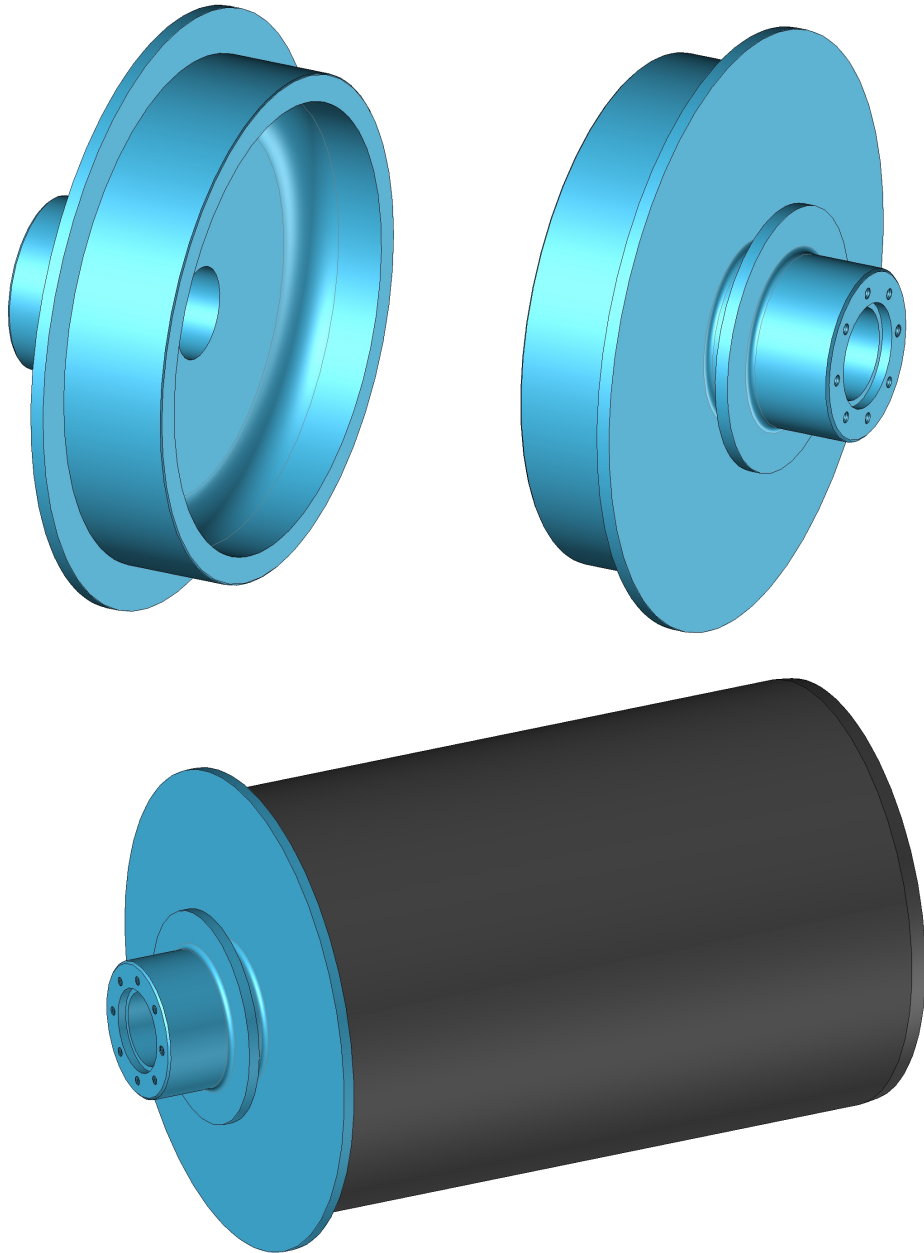

User-supplied technical part render. Reference code follows the source filename.

Verify dimensions, drawing revision and machine compatibility before ordering.

TK3PC-SG-0004

Core tube head

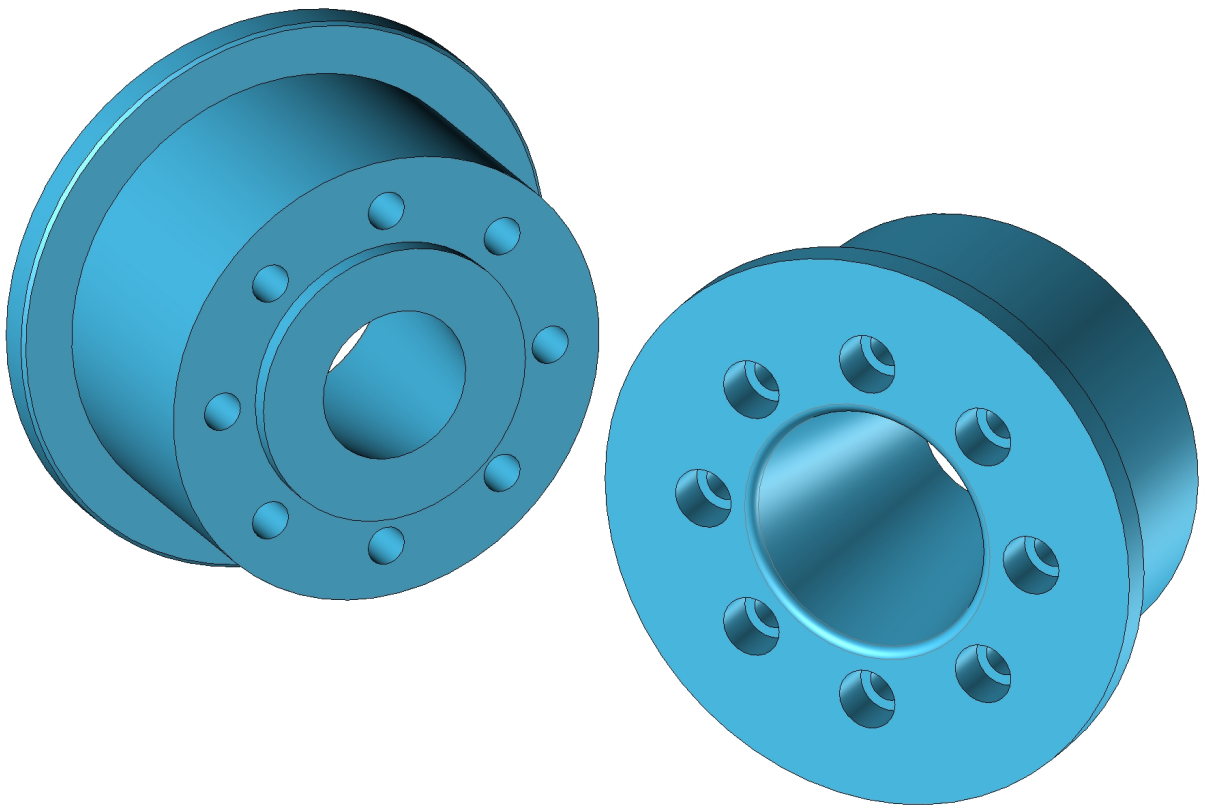

User-supplied technical part render. Reference code follows the source filename.

Verify dimensions, drawing revision and machine compatibility before ordering.

TK3PC-SG-0006

Reel clamping head bearing

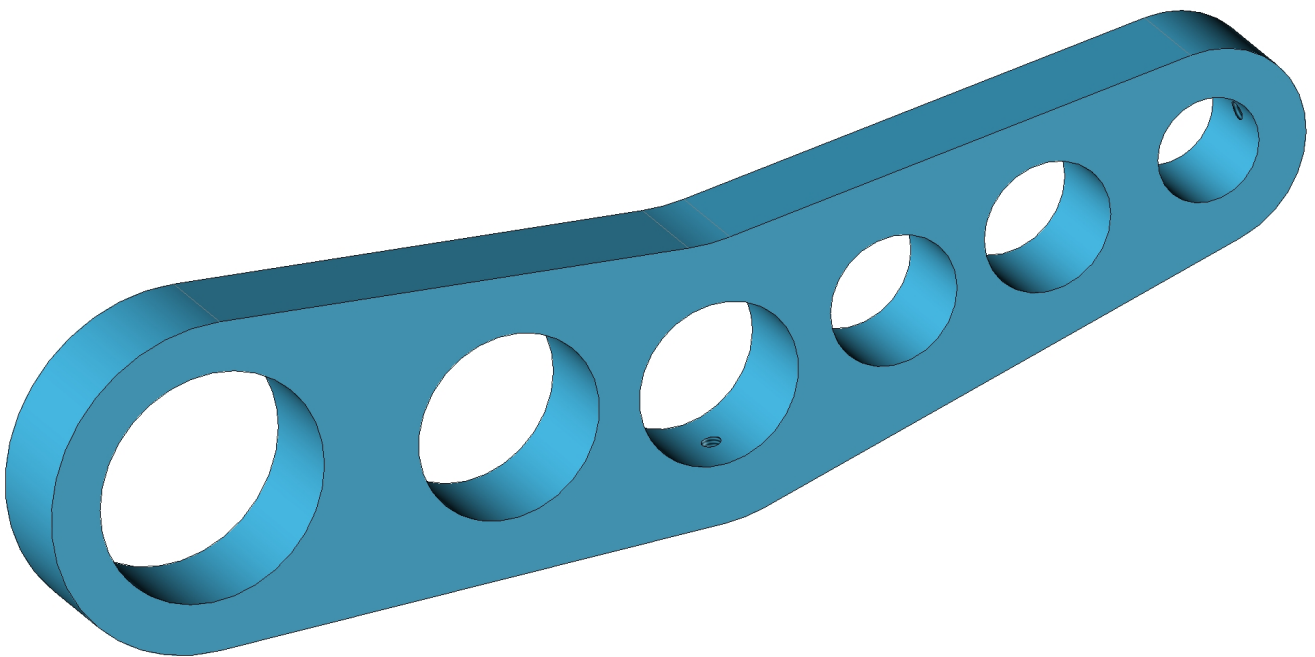

User-supplied technical part render. Reference code follows the source filename.

Verify dimensions, drawing revision and machine compatibility before ordering.

TK3PC-SR-0035

Diameter adjustment roller connecting rod

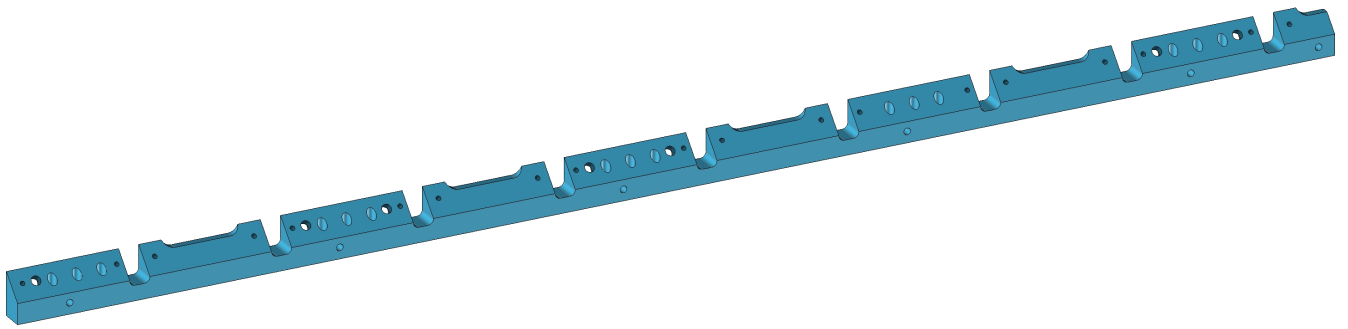

User-supplied technical part render. Reference code follows the source filename.

Verify dimensions, drawing revision and machine compatibility before ordering.

TK3PC-SR-0041

Holder connection support

User-supplied technical part render. Reference code follows the source filename.

Verify dimensions, drawing revision and machine compatibility before ordering.
